PROFESSIONAL SUMMARY

Dynamic Full-Stack Developer with expertise in the MERN stack (MongoDB, Express.js, React, Node.js), building robust and responsive web applications. Skilled in leveraging React, Material-UI, and Framer Motion for modern front-ends, and Node.js with MongoDB for efficient back-ends, integrated with tools like EmailJS. Seeking to apply technical prowess and a passion for innovation to advance cutting-edge projects in a growth-driven environment.

WORK EXPERIENCE

EthioShop - E-commerce Website

Freelance | github.com/ez-programmer4/ethioshop | [Live Link]

- Designed and developed a full-stack e-commerce platform using the MERN stack (MongoDB, Express.js, React, Node.js) to enable online shopping for a local client.
- Implemented product catalog browsing, shopping cart, user authentication (JWT), and secure checkout with payment integration.
- Utilized React with Material-UI for a responsive front-end, optimized with Framer Motion animations, and MongoDB for data management.
- Deployed on Render with 98% uptime and positive client feedback.

E-Learning Website

Freelance | github.com/ez-programmer4/elearning | [Live Link]

- Created an e-learning platform with the MERN stack, featuring course catalogs, user dashboards, and quizzes.
- Used React, Material-UI, and Framer Motion for a responsive, animated UI, with EmailJS for notifications.
- Integrated MongoDB for data storage and deployed on Heroku, supporting 100 concurrent users.
- Praised for intuitive navigation and design.

MyPortfolio - Personal Portfolio Website

Freelance | github.com/ez-programmer4/myportfolio| [Live Link]

- Designed and developed a full-stack personal portfolio using the MERN stack to showcase professional skills and projects.
- Implemented a futuristic, responsive UI with React, Material-UI, and Framer Motion, featuring animated sections for an engaging experience.
